PERSPECTIVES ON TERRORISM

BIBLIOGRAPHY

Terrorism and the Media (Including the Internet) Part 6

Compiled and selected by Judith Tinnes*

Volume XVII, Issue 2
June 2023

ISSN: 2334-3745

This bibliography contains journal articles, book chapters, books, edited volumes, theses, grey literature, bibliographies and other resources on the multi-faceted relationship between terrorism and the media, including the Internet. To keep up with the rapidly changing media landscape (particularly social media) and the technological developments in the online environment, the most recent publications have been prioritised during the selection process. The literature has been retrieved by manually browsing more than 200 core and periphery sources in the field of Terrorism Studies. Additionally, full-text and reference retrieval systems have been employed to broaden the search.

Keywords: Bibliography, resources, literature, Internet, social media, mass media, terrorists, extremists, cyberterrorism, narratives, counter-narratives

NB: All websites were last visited on 12 May 2023. This subject bibliography is the sixth instalment of a six-part series. To avoid duplication, this compilation only includes literature not contained in the previous parts. However, meta-resources, such as bibliographies, were included in the sequels. For an inventory of previous bibliographies, see: *https://archive.org/details/terrorism-research-bibliographies*.

About

Perspectives on Terrorism

Established in 2007, *Perspectives on Terrorism* (PT) is a quarterly, peer-reviewed, and open-access academic journal. PT is a publication of the International Centre for Counter-Terrorism (ICCT), in partnership with the Institute of Security and Global Affairs (ISGA) at Leiden University, and the Handa Centre for the Study of Terrorism and Political Violence (CSTPV) at the University of St Andrews.

Copyright and Licensing

Perspectives on Terrorism publications are published in open access format and distributed under the terms of the Creative Commons Attribution-NonCommercial-NoDerivatives License, which permits non-commercial re-use, distribution, and reproduction in any medium, provided the original work is properly cited, the source referenced, and is not altered, transformed, or built upon in any way. Alteration or commercial use requires explict prior authorisation from the International Centre for Counter-Terrorism and all author(s).
